_Teacher Education

Educator sessions delivered by Cyber Owls are tailor made to suit the audience. We pride ourselves on delivering quality information that is relevant and unique to the teachers.

_Student Education

Students are shown real world examples of online stalking, breaking passwords and how digital footprints are made.

_Parent Education

Parent / carer sessions introduce the audience to the possible dangers of the internet with real world examples.

We discuss safety topics and educating kids in the home.

"Cliff's lessons were well planned and engaging, including fun interactive presentation methods with age appropriate content"
